How to restore a Database on the Food POS

How to Restore from backup file (refer attached screen shot)
1 - Connect your iPad to a computer and open iTunes on the computer.
   - locate your iPad device on the iTunes application

2 - Select the iPad device and select "Apps" tab button on top of the window.
3 - scroll down until File Sharing section
4 - Select FoodPOS app
5 - this is the FoodPOS Documents folder
              - drag and drop "FoodPOS_01-Mar-2013-10-40-06.octopus"
backup file to this. (refer screen shot)

- Then fully close the FoodPOS app from iPad (from multitasking panel - double
clicking home button)
- restart the FoodPOS
- go to Backup/Restore > Restore > admin login
              - then select above file from the list
Then restart the app.
